Also, for the appointment of a State Central Committee, and the transaction of such other business as may properly come before the Convention, the appointment of the number of delegates from each county to said Convention being as follows:

Churchill.....2 Lyons.....7
Douglas.....2 Orms.....11
Elko.....1 Storey.....30
Esmeralda.....1 White Pine.....3
Eureka.....1
Humboldt.....1
Lane.....1
Lincoln.....1

The several Republican County Central Committees are hereby instructed to call a Primary Election of the people on

Saturday, April 28, 1888.

For the purpose of electing Delegates to the said State Convention, the Primary Election to be held on said date in compliance with the laws of the State and the instructions of the C. committee.

The following list will be required of each and every voter at the said Primary Election: "I am a citizen of this State, and I will support the nominees of the Republican party."

The Republican electors in this State and voters without regard to past political affiliations, difference of action, who believe in the American principle of a protective tariff for the defense and development of home industries and the elevation of home labor, who would reduce the national taxes and prevent the accumulation of a surplus in the Treasury, in harmony with this principle, who are opposed to the present tariff, now more openly avowed than ever before, to establish a policy which would strike down American labor to the level of the underpaid and oppressed workers of foreign lands; who favor national and constitutional, which will enable the United States to conduct international negotiations with self-respect; who gratefully cherish the independence of our country; who condemn and resent continued and unjust exclusion of our citizens from the rights of citizenship; who are in favor of the absolute exclusion of all Asiatics, paupers, insane, criminals, and persons known as Communists, Nihilists or Anarchists, and limiting all further immigration and a revision of our naturalization and land laws, the executive immunity of which causes the undesirable aliens to our surplus labor; who are cordially invited to unite under this call in the formation of a national ticket.

W. C. LOAN, Secretary.

MISCELLANEOUS.

EVERY NIGHT I SCRATCHED

Until the Skin was Raw. Body Covered with scales like spots of mortar. Cured by the Cuticura Remedies.

I am going to tell you of the extraordinary change your Cuticura Remedies performed on me. About the first of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar, accompanied with itching. I would scratch every night until I was raw, and then the next night the scales began to fall. I mean while were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your Cuticura Remedies, and I purchased them from my drug store, and applied almost immediately. I began to notice that the scales gradually dropped off and the disfigurement of my body was being cured. I had the disease three months before I began using the Cuticura Remedies, and in five weeks was completely cured. My skin was eczema and psoriasis. I recommended the Cuticura Remedies to all in my vicinity, and know of a great many who have taken them and thank me for the knowledge of them, especially those who have been afflicted with scales on their heads and bodies. I cannot express in words the thanks to you for the Cuticura Remedies, which have saved my life. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's.

W. E. COFFEY, Merrill, Wis.

Sept. 21, 1887.

Feb. 7, 1888.—Not a trace whatever of the disease from which I suffered has shown itself since my cure.

Breed With Intelligent Horses.

It is just as important with horses to breed for intelligence as it is in the human race. A dull, stupid colt never can be educated to be a valuable horse. Without intelligence he will always be sluggish, and will never have an attachment to his master, nor manifest any disposition to obey and serve him as a pleasure. Most intelligent horses are naturally docile, or can be easily trained to be kind, reliable and even affectionate. Breeders of horses should look to the native intellect of the mare and stallion with as close a scrutiny as they examine their pedigree. Once make an intelligent colt or horse believe that his owner and trainer is his best friend, and there will be little or no trouble in training him, or trusting him in all emergencies. It is true there are cases where very intelligent horses are vicious and always dangerous. In some cases this is owing to the way they are treated in early life. Others are always vicious and dangerous to trust under any circumstances. In most cases this is inherited, and the breeder should investigate the question of disposition as well as intelligence. Never breed to a horse that is vicious, dangerous or even disagreeable. A horse which is dangerous or treacherous to his groom, no matter how fine his form, how pure his blood, how great his ancestry, he should be taken to the public commons and shot. Thousands of precious lives are sacrificed to vicious stallions and their descendants. All other good qualities cannot redeem a vicious disposition. Nor can a beautiful form overcome a lack of intelligence and sprightliness. —N. B. Agriculturalist.

Salt the Cows.

A Wisconsin dairyman lately told me he milked 17 cows the past season, and early in the summer ran out of salt, and having read in an agricultural paper that cows do just as well without salt he neglected to get another barrel. The drought came, the milk flow dropped to about 200 pounds a day, which gave no profit, nor did it increase after the pastures were freshened by rains. He bought a car-load of millstuff and began feeding, but still received only 220 pounds of milk a day, and several of the cows would hold up their milk once or twice a week. Then he began to salt regularly every day, and the cows improved at once and the increase was steady until on the same feed they were producing 380 pounds of milk a day, and instead of being kept at a loss, yielded a fair profit. The farmer needs to be wide awake and careful. A well-balanced ration fed at regular hours and in regular quantities, with attention to water, salt, bedding, and all the points which go to make the animals comfortable, will save money, particularly in a season when feed is high-priced. I never found a work hand to whom I could afford to trust the winter feeding of my stock. —Waldo F. Brown.

A Remarkable Ox.

Here is an ox for you, reported by the Rural World: Height 18 hands; in length from the poll to root of tail, 11 feet 3 inches; measures around girth 8 feet 3 inches; depth of brisket; 4 feet 8 inches; around arm 2 feet 2 inches; around the hock 2 feet; when walking or facing carries his head 7 to 8 feet in the air; is a dun with some white spots; weighs about 2,000 pounds, thin in flesh, but in good, thriving condition; will be six years old this spring; has never been fed grain until within the last five months. Was bought in a herd in south Missouri last fall, to feed, but is still growing and don't take on fat. He is the property of Captain Samuel Shanks, Pettis, Co., Mo. This is an evidence of what south Missouri can do.

FOR SALE.

A FARM OF 160 ACRES, SITUATED on Clear Creek, and known as the "White House Ranch," containing all the necessary tools and appliances for conducting a farm, and sixteen head of cattle and horses, chickens, wagons, a good seedling house and furniture, with part of the crop sown. Will be sold cheap for cash, owing to death of Mr. Gardner. Apply to the undersigned, on the premises. MRS. JOHN GARDNER.

mh24-25. Ormsby County, Nevada.

Groceries and Provisions

J. N. BAKELAND, successor to J. Painter & Bakeland, keeps a full line of FAMILIAR GROCERIES and FINE VEGETABLES.

Orders delivered at residences free of charge.

Worth Knowing.

Mr. W. H. Morgan, Lake City, Fla., was taken with a severe cold, attended with a distressing cough, and running into consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures, as Dr. King's New Discovery for Consumption is guaranteed to do just what is claimed of it. Trial bottle free at Hodgkinson & Co.'s drug store.

At Night Acker's Baby

Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by

W. PINNIGER, Druggist.

Rapid Beating of the Heart.

Whenever you feel an uneasiness in the region of the heart, a slight pain in the shoulder, arm, or under the shoulder-blade, or when you find yourself short of breath when exercising, or your heart has periods of beating fast, you have heart disease, and should take Dr. Flint's Heart Remedy. At druggists, \$1.50. Descriptive treatise with each bottle, or address J. J. Mack & Co., S. F.

Many Of the good things of

ly let alone on account of Dyspepsia. Acker's Dyspepsia Tablets will cure Dyspepsia, indigestion and constipation; sold on a positive guarantee at 25 and 50 cents, by

W. PINNIGER, Druggist.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Pigs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Don't Trifle with any Threat or Lung Disease.

If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, take Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNIGER, Druggist.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, no matter how long they have existed. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co.

Renews Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay county, Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, 50 cents and \$1 at Hodgkinson & Co.'s drug store.

Babies That are fretful,

troubled with Windy Colic, Teething Pains, or Stomach Disorders, can be relieved at once by using Acker's Baby Soother. It contains no Opium or Morphine, hence is safe. Price 25 cents. Sold by

W. PINNIGER, Druggist.

Save The Children. They are

especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Acker's English Remedy a positive cure. It saves hours of anxious watching. Sold by

W. PINNIGER, Druggist.

Cure for Piles.

Itching Piles are known by medicine like purgation, producing a very disagreeable mucus after getting warm. This form, as well as Piles, is cured by the use of Dr. Bosanquet's Pile Remedy, which acts directly upon the inflamed part, relieving the intense itching, and effecting a permanent cure. 50 cents. Acker's English Remedy, sold by S. J. Hodgkinson & Co., Reno, Nev.

Dr. Be-San-Ky

In his new discovery for Consumption succeeded in producing a medicine which is acknowledged by all to be simply marvelous. It is exceedingly pleasant to the taste, perfectly harmless and does not sicken. In all cases of Consumption, Coughs, Colds, Whooping Cough, Croup, Broucheitis, and Pains in the chest, it has given universal satisfaction. Dr. Be-San-Ky's Cough and Lung Syrup is sold at 50 cents by S. J. Hodgkinson & Co., Reno, Nev.

What Will Tell?

Was never before so demonstrated than when Dr. Fyfe's Abietine Remedies were awarded diplomas at the late California State Fair at Sacramento, held at the Mechanics Institute in San Francisco. Wm. Pinniger is agent for these celebrated "Abietine Remedies," and he offers to return your money if they do not give satisfaction. In buying, be sure the Abietine signature is on the wrapper, as others are now getting without it.

An Absolute Cure.

The ORIGINAL ABIE-TINE OINTMENT is put up in large two-ounce tin boxes, and is an absolute cure for all sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABIE-TINE OINTMENT, sold by Osburn & Shoemaker at 25 cents per box by mail 20 cents.

Why suffer with bleeding, blind itching,

and ulcerated piles, Catarrh, Old Sores, Chapped Hands, when a few applications of Fyfe's Abietine Ointment is guaranteed to cure in 5 days. Price, 25 cents. Sold by W. Pinniger, Druggist. Abietine preparations bear the Abietine signature of Dr. Fyfe.

In the death of Roscoe Conkling this morning the nation is called upon to mourn the loss of one of its greatest and most brilliant sons. His varied career, his political mistakes, are known to all, and while many will condemn his course in political matters none will fail to award him the merit and praise which his great attainments, spotless integrity and patriotism entitle him to. Peace to his ashes.

THERE can be no question, says the *Eureka Sentinel*, that Senator Stewart is making himself immensely popular with all the people of the Pacific Coast. Through his great energy and ability he has pushed himself right into the hearts of his immediate constituents here in Nevada, irrespective of party. Words in praise of him are to be heard on every hand. No other man in Washington is so frequently and so favorably quoted by the San Francisco press as Senator Stewart. His measures and speeches and opinions are referred to by all the papers, and quite frequently form the basis of leading editorials on current public questions. There can be no question that the people of this State and coast like a man of activity and ability. In this view they feel a just pride in the efforts of Senator Stewart. In common with the great mass of his fellow-citizens we accord to him in the highest degree the position of usefulness and industry in the discharge of the duties incumbent upon every representative of the people. A close observer of public men once said to us of Senator Stewart, in connection with his former Senatorial career, that he was the ablest and most influential member of that body at that time. The estimate may or may not have been too high, but it is quite certain that the Senator is starting off in a way to make himself felt during his present term. We are always glad to be able truthfully to say graceful things of public men, because their lot is usually a hard one, and their efforts in the main are never half appreciated by those they serve. Senator Stewart is a good and useful public servant of ability.

JOHN LAWRENCE SULLIVAN has announced his intention of soon leaving the ring. He is not going to return to barkeeping; not he, but he proposes, cheered by the example of our friend of the Millionaire and Express, to assume the chief management of some "great Boston daily." What the name of the paper that is to be so honored may be John L. has not yet developed. It is needless to say that the editorial fraternity in Boston are in a tremendous state of excitement to know whose head is to fall before John's triumphant advance in Journalism.

TELEGRAPHIC BRIEVITIES.

Nobel, the inventor of dynamite, is dead.
 —John Baring, the banker, member of the firm of Baring Bros., London, is dead.
 —The Independent Belg reports the establishment of a Regency for Belgium imminent.
 —Captain Andrews of Boston is preparing a 14-foot canoe in which to cross the Atlantic.
 —At last it is settled that Secretary Bayard is to marry Mrs. Folson, the mother-in-law of President Cleveland.
 —The State Department is advised that the Chinese Government is moving toward shutting out imported petroleum.
 —Vice-President Bond of the St. Paul railroad denies the story that the company intends to extend its line to California.
 —Major-General Howard feels confident that he will be assigned to the command of the Division of Missouri, and that General Crook will be assigned to the Division of the Pacific.
 —The New York Senate on Monday passed (18 to 10) an amendment to the Constitution prohibiting the sale or manufacture of liquors in that State. There was little debate on the measure.
 —It is reported in Washington that Senator Beck will be married in the summer to a daughter of Dr. Mandell, of Louisville. The lady is widow Henderson, and wealthy. Senator Beck is 66 years old, but a remarkably hale man. He has been a widower for fifteen months.
 To Marry His Ward.
 SAN FRANCISCO, April 18.—William D. Carlisle applied at the marriage license office to-day for a license to marry his ward, Miss Sarah J. Crute. Mrs. Carlisle recently obtained a divorce from her husband, and all the parties figured in a domestic scandal at Napa a short time ago which created considerable of a sensation.
 A Texas Assassination.
 ST. LOUIS, April 18.—Thomas M. Kennedy, a wealthy cattle dealer of Brownsville, Texas, was killed by Sheriff Jose Maria Esparez, a wealthy Mexican, near Terry Landing, Texas. The cause was jealousy. The Mexican was concealed behind a tree when he fired.

Arrest of a Winnemucca Thief in San Francisco—The Sharon Estate in Court—Etc.

CONKLING DEAD.

The Great Politician and Lawyer At Rest.

NEW YORK, April 17.—Dr. Barker called at 9:15, and remained until 9:45. He said: "Conkling is slowly sinking, but may linger for hours yet. He is unconscious and suffering no pain, so that there is no wear upon the tissues, and as the vital powers of some men are greater than others there is no knowing how long he may linger—he may live until morning. His pulse is now 140, temperature 102, respiration 60."

All the afternoon the sick statesman lay motionless in his bed in the Hoffman House annex. He occasionally moved his arms, which were under the bed covering. He lay on his right side, in order that the wound on the left side of his head might not get irritated. This cut, it will be understood, is the one Dr. Sands made when he operated in the endeavor to save the ex-Senator's life.

At 9:10 P. M. El Stokes came out of the house and said that Conkling was sinking very rapidly. His death was merely a question of time.

Large crowds congregated in the streets through the evening, owing to the bulletins announcing that the end was near. Prominent politicians and members of the bar were seen in the corridors of the Hoffman House discussing the abilities of the dying ex-Senator and inquiring the latest news. Every one was anxious to get information, and yet feared that at any moment it would be learned that the end had come.

A sorrowful group surrounded the sick man's bed. Mrs. Conkling, whose vigils have been beyond the endurance of many stronger women, and who had watched her husband incessantly, was at his side looking worn and despondent. His nephews, Judge Alfred C. Cox and Alderman Conkling, and brother, Col. Fred A. Conkling, and Mrs. Oakum were sorrowful observers of the passing away of the great Senator.

The strong frame that in delirium required the stoutest porters of the Hoffman to hold him, even while wasted by disease, now lay low and almost lifeless in the hands of the Great Destroyer. His breathing was weak and difficult.

The Ex-Senator Dead.

NEW YORK, April 18.—Conkling died at 1:50 A. M.

At the bedside of the dying man were Mrs. Conkling, Judge Cox, Dr. and Mrs. Oakum. Mr. Conkling passed away without moving a limb; he looked as though he was in a peaceful sleep. There were a number of persons outside, on the street, waiting to catch the last reports, and within doors were between forty and fifty persons also waiting to hear the worst. They were composed chiefly of representatives of the press and friends of the dead Senator.

A DREADFUL STRUGGLE.

Mr. Conkling died in the rear chamber on the second floor of his residence. "It was a dreadful struggle that the patient fought against death," said Judge Cox, "but the end was peaceful and unaccompanied by pain. His sorrowful wife and daughter were weeping at his side, but the once keen eyes were glazed and wet. Mrs. Conkling and her daughter bore up bravely, but the wife was almost prostrated." Mrs. Oakum supported her mother while the aching pained deepened upon the emaciated face and the patient gasped three or four times and passed away. In death the lines about the mouth and face were slightly drawn. Though much emaciated, still in death the face seemed natural. The interment will take place at Utica.

THE TARIFF BILL.

It Comes Up in the House, and Mills Makes a Long Speech.

WASHINGTON, April 17.—The opening of the session of the House to-day found nearly every member in his seat, while the galleries were crowded with interested spectators. On the floor there were a large number of ex-Congressmen, among them Rannery of Massachusetts, Gibson of West Virginia, Groesbeck of Ohio, and many others. It took Speaker Carlisle an hour and a quarter to receive the regular reports of the committees, during which time Chairman Mills sat at his desk fortified with numerous books of reference. He was extremely nervous, and frequently bobbed up and down with impatience. After the call of committees he moved the House resolve itself into Committee of the Whole for the purpose of considering his tariff bill. This was agreed to, the Republicans not voting. Springer of Illinois was called to the chair, after which Kelley of Pennsylvania arose and asked unanimous consent that Mills be not limited as to time. This was agreed to, and applause from the Democratic side. When he concludes he will reciprocate, by asking the same favor for Kelley. Mills is making a regular old time free trade argument for his measure. He will probably speak four hours, and perhaps longer. Kelley of Pennsylvania will follow and open the debate in antagonism to the bill for the Republican side. Kelley's speech will make about 8,000 words. An effort will be made to limit the general debate to two weeks.

FRANCE'S SENSATION.

Boulanger's Election Occupies the Entire Attention of the Country.

PARIS, April 18.—Small crowds collected in portions of Paris last night observing for General Boulanger. The police dispersed them without any trouble. The *Journal des Debats* says

the election of General Boulanger in the Department of the Nord shows the country is weary out and profoundly disgusted with the conduct and policy of the government. A majority of the electors, it says, can no longer endure a government which does not govern, but leaves the country a prey to the vacillations and dissensions of politicians and tyrannical electoral committees. The Opportunists attempted to hold a conference at Bordeaux last evening, but were disturbed by supporters of General Boulanger, and were compelled to suspend proceedings.

THE CHINESE.

Belmont Prepares a Bill Looking to Their Exclusion.

WASHINGTON, April 17.—Representative Belmont, Chairman of the Committee on Foreign Relations, has prepared a bill to carry out the provisions of the new Chinese treaty, which he will introduce in the House as soon as possible. It is understood that the bill was prepared after a consultation with State Department officials, and is to have Secretary Bayard's approval. The object of the framers of the bill has been to meet the strong objections to the new treaty presented by the people of the Pacific Coast. The bill proposes that from and after the date of passage it shall be unlawful for any Chinese person, whether a subject of China or any other power, to enter the United States, with the exception of officers, teachers, students, merchants or travelers for pleasure or curiosity.

BAYARD'S BACKBONE.

He Will Not Protest Against Any Action of Foreign Powers.

WASHINGTON, April 17.—The State Department has received no information regarding the hoisting of the British flag over Christmas, Fanning and Penrhyn islands. The United States lays claim to but one island in the Pacific, which is held by right of discovery. It is stated, therefore, that if the British have taken possession of the above mentioned islands, this government could no more than protest, even if their occupation was worth this effort. It is stated that correspondence between this country and Germany relative to the seizure of the Samoan Islands still continues, and the chances are that if the Germans do not move out of their own accord the American government will take no active steps to dispossess them.

A Heavy Flood.

ALMA, Wis., April 18.—The water in the Mississippi river at this point has risen twenty inches in twelve hours. Twenty families have been driven from their homes, and railway tracks have suffered great damage. The Minnesota boom has gone out, and 2,500,000 logs have been carried away. The damage to property is estimated at \$50,000. Logs to the value of \$100,000 have been swept away.

The Sharon Estate.

SAN FRANCISCO, April 18.—The Sharon trustees filed in the office of the Clerk of the United States Circuit Court to-day a bill of revision, to prevent the execution of the decrees of Superior and Supreme Courts in the matter of overhauling the private accounts of the late William H. Sharon. The action is entitled "Francis G. Newlands, a citizen of New York, trustee of William Sharon and heirs."

Making Good Indians.

LAS CRUCES, N. M., April 17.—While two Indian policemen attempted to arrest Sacate, a Mesquero Apache Indian, and his son, who were drunk and causing trouble in the camp, a fight ensued, in which one of the policemen was killed, Sacate's son was fatally and three women seriously injured by stray shots. Sacate was finally secured and locked up.

A Winnemucca Thief Captured.

SAN FRANCISCO, April 18.—A month ago the Sheriff of Humboldt county, Nevada, wrote Chief Crowley stating that Peter Santino, an Italian, was wanted for larceny at Winnemucca. An officer to-day succeeded in arresting the man, who was hiding in the house of a friend here.

The Powell Jury Fail to Agree.

REDWOOD CITY, Cal., April 17.—The jury in the case of L. A. Powell charged with the murder of R. S. Smith, were discharged this morning, having failed to agree. They stood seven for acquittal and five for conviction of murder in the first degree.

Ayer's Cathartic Pills are suited to every age. They are mild and pleasant in action, thorough and searching in effect, and being sugar coated, are easy to take. These pills never fail to give satisfaction.

HOTEL ARRIVALS.

DEPOT HOTEL—H Lowden, Ed F Murphy, M Levi, H A Clark and wife, E McBeth, B Brien, San Francisco; R G Heins, U S Army; F Conn and wife, Columbus; E Tando; H Yerington, W C Dorey, Carson; G Snyder, C P Ferguson, Pallas; M D Foley, Carson; J. J. Carson, Chicago; Mrs A Holland, Mason valley; M H Sunderland and wife, Nevada; C L Garland; Sierra valley; Dr O M E Prentice and wife, N Y; Miss Bailey; F M Foley, Winnemucca; F Rockwell, Ogden; B C Maria, Reno; Miss Jones, Wadsworth; R C Walrath, Nevada; R C Becker, Ill.

PALACE HOTEL—Mrs Whitmore, Carson; Theo Brandon, Churchill; Giles Blood, Austin; J B Monsoo; J Wardlaw, Virginia City; J Davis, Stockton; J W Jerritt, Tuscarora; M Seeling, W Fallon, Reno; Oscar Gardie, S Frank, Truckee; Joe Lony, Wadsworth; S S Lapoint, Michigan; W Renand, N M; W J Hopkins, Sacramento; C H Lewison, J B Barry, San Diego.

BORN.

SOUTHWORTH—In Carson, April 8, 1888, to the wife of Dr. S. Southworth, a son, BILL—At Lovelock, April 8, to the wife of George Hill of Wadsworth a daughter.

MARRIED.

BERK—HELLER—in Winnemucca, April 14, at the residence of Col. F. D. Sweetser, by E. V. E. McEwen, George Berk to Miss Louise Heller.

JOTTINGS.

Ask Bob Christy what Amole means. Robes, whips and harness, farm wagons and buggies at Longbaugh's.

If you want to know what real comfort is, supply yourself with one of those stylish White House suits. Call on Leeper when in need of harness, whips, robes, saddles, etc. Shop on Sierra street, near Fourth, Reno.

W. Pinniger, the Reno druggist, has on sale in quantities to suit matured Thistle Dew whiskey for medicinal purposes.

For good wood, a full cord guaranteed, go to Haynes & Algeier. Leave orders at Rube's butcher shop or Nelson's cigar store.

W. M. Hannon keeps the choicest brands of tea and coffee in the market. A supply of Booth's succulent bivalves just received.

R. Herz is not only carrying a complete stock of the latest styles of jewelry, but is doing cleaning and repairing as low as it can be done anywhere.

C. A. Thurston keeps smokers' articles of all kinds. The best five-cent cigar in the market he keeps. Pens, pencils, paper, books, and all periodicals in profusion.

Instead of sweating over your sawback with a dull saw, buy some of J. F. Aiken's dry stove wood, cut any length wanted. He is also retailing pure mountain loe.

By manufacturing his own candles, C. J. Brookline is never obliged to palm off a stale paste article on his customers. He also keeps the best five-cent cigars in town.

J. J. Becker has a cold lunch set at all hours, but between 11:30 and 2:30 each day there is a hot lunch spread, which is served free with a glass of Boca or Sacramento beer.

Irritation of the Throat and all lung troubles are quickly relieved and permanently cured by Fryer's Abietine Cough Balsam. (It contains no Opium.) Price, 75 cents. Sold by W. Pinniger. All genuine Abietine preparations bear the fac-simile signature of D. F. Fryer.

A perfectly sound body and a well-impregnated mind are the only conditions for success. Leading medical authorities in Europe have shown that the best blood-purifying medicine in existence is the only one that does not injure the system and produce any of the bad effects of other blood-purifiers.

THE RIO BONITO SALE.

Six Hundred Acres Bring Fifty Thousand Dollars.

In company with thirty-five others from Chico, a representative of this paper last Saturday morning boarded the train and was soon landed at the thriving town of Biggs. There we met the large company which had come up on the midnight train from below to attend the great auction sale. Messrs. Preble & Young, proprietors of Rio Bonito, had every detail already arranged and everybody was soon provided with conveyance, and we rolled over a smooth road a few miles out to the lands of the Rio Bonito colony. A rapid turn around and through the lands in all directions gave good opportunity for persons to see all parts. Finally the company assembled at the immense oak near the margin of the river where the auction was to take place. There were many present from Oroville, and the surrounding country turned out en masse. A splendid barbecue was ready prepared, which was cooked by masters of the art. The early morning ride and the rural surroundings created good appetite, and the company feasted in earnest. Yet there was plenty and to spare. The auction of lots was not quite so spirited as could have been desired, but good prices were obtained and a good share of the land was sold. Some six hundred acres were sold at auction and other tracts at private sale. The land is in variety, part of it being red land, extending up on the plains to the west of the river and part being alluvial bottom land bearing the richest crops of wheat and corn. The price for the red land was \$40 to \$70 per acre, and the bottom land at from \$70 to \$80. These are not high prices, but are very satisfactory. It is the boast of Butte county that she furnishes as fine a quality of soil as can anywhere be found at half the price which is elsewhere demanded. It is thought that when these moderate rates are made known the demand for these very excellent lands will be largely increased.

Many tracts in Rio Bonito are already being improved. There is a fine tract of about 100 acres set out in olives, owned by J. A. Filmore and Dr. C. T. Deau. Several others have their tracts set in variety fruits. When we consider that this colony was started only two months ago, the vigor with which it has been developed, and the amount of improvement made, are truly astonishing. Another excursion will shortly be arranged. —Chico Chronicle-Record.

LIGHTNING LEW RETURNS.

Several New Enterprises Mysteriously Mentioned—Reno to be benefited. Lew Stevenson, manager of the Reno Electric Light Company, returned from the East last evening, where he has been on business connected with his company. While there he visited Chicago and Detroit, where the electric light has been brought to greater perfection than in any other cities of the country, and made a thorough inspection of the various systems in use. The information he has acquired will prove of great benefit to his company and may lead to several enterprises distinct from it being inaugurated in this State. Beyond stating that the lights are furnished to Reno at a lower rate than they are at any point visited and that the lights are the most brilliant he has yet seen, he is noncommittal, although certain mysterious hints made during his talk would lead one to believe that his trip east was not made solely for the benefit of the company. He acknowledged, however, that he made several important arrangements, but at present will not disclose their import. Whatever his schemes may prove to be only time will disclose, but Reno will be sure to be benefited by the enterprises he so mysteriously refers to.

A Horse-Thief Under Arrest.

A horse-thief will take up his residence for an indefinite period in the county jail this evening. His name is John Bowen and was arrested in Carson yesterday by Sheriff Ulrick of Ormsby, who looked with suspicion upon the ridiculous small price asked by Bowen for a fine sorrel horse which he was endeavoring to sell. The vendor was placed under arrest by the vigilant officer, who telegraphed to Frattown, requesting particulars. An answer was received which stated that the animal had been stolen from George Smith of Pleasant valley, in this county. Accordingly Sheriff Flint proceeded to Carson to-day, and is expected to arrive with his prisoner from there this evening.

A Pleasant Improvement.

Through the kindness and generosity of Mrs. Ross Lewers of Franktown Sheriff Flint has been able to decorate the grounds in front of the court-house with thirty-five or forty different varieties of flowers, shrubs and plants. The plants arrived in first-class condition Thursday morning and were immediately planted on either side of the gravel walk and around the border of the lawn. Already the plants have assumed their usual green, and seem to be going ahead as vigorously as though never moved from their native soil. Unless some unfortunate accident occurs the court-yard will be the flower garden of the town before the summer is over.

A Miniature Flood.

Owing to the great body of water in the Beck ditch this morning it was found necessary to turn it into the Sullivan and Kelly ditch. The pressure was too great for the latter, and the result was the water overflowed this afternoon at a point between Front street, between Virginia and Sierra streets, flooding the back yards of several residences to a depth of over a foot. The only casualty reported is the drowning of half a dozen chickens belonging to W. S. Lynch.

BREVITIES.

Local and General Intelligence.

The fire ladders had a practice drill last evening. Dick Ryland is reported very ill with bilious fever.

There is a letter in the postoffice for One-eyed Riley.

M. D. Foley of the Nevada Bank has returned from Europe.

C. Allen and wife of Churchill county are visiting friends in Reno.

District Attorney Love of White Pine county talks of resigning his office.

Johnson's B. B. Minstrels at the Nevada theater to-morrow night.

Sheriff F. M. Fellows of Humboldt county is registered at the Depot hotel.

C. C. Powning is kept busy making out deeds for lots in his addition to Reno.

Rev. Bradshaw is convalescing from his recent attack of intermittent fever.

Another incandescent dynamo will shortly be placed in position by the electric light company.

The residence of C. E. Colt at Truckee was destroyed by fire last week. Loss, \$700; insured for \$400.

A tapeworm six feet long was successfully removed from a patient in the Elko county hospital recently.

The quarantine has been raised from two of the smallpox infected localities at the Virginia and Gold Hill divide.

Over 9,000 olive trees have been planted by recent purchasers of Rio Bonito Colony lands in Butte county, Cal.

The people of Virginia and Carson should come to Powning's great auction sale next Saturday. Reno will treat you well.

Dr. Prentice, the celebrated specialist, and wife arrived from New York last evening and are registered at the Depot hotel.

Mrs. Henry Johnson and Mrs. Eager were passengers for the east this morning. The former will visit friends in New York, the latter friends in Canada.

Carson Tribune: W. M. Cary is said to be very ill at the Arlington House, and report has it that he has tendered his resignation as Fish Commissioner.

The many friends of Mrs. Alt, the well-known dancing teacher, will be pleased to learn that she is rapidly improving and her entire recovery is only a question of a short time.

The marriages of Hugh Vail of Churchill county to Miss Edith Rising, daughter of Judge Rising, took place in St. Paul's Episcopal Church, Virginia City, to-day at noon.

Home Butler, a member of the chain-gang, eluded the vigilant eye of Deputy Sheriff Hayes yesterday and took French leave. To-day he was arrested at the Pyramid House by Officer Thrall and returned to his old quarters.

The practice of dumping shells on Virginia street should be discontinued. Myriads of flies are attracted thereby, and the stench arising from the decomposing mollusks is very disagreeable to passing pedestrians and store-keepers in the vicinity.

Justice Young's docket shows the following: Frank Cobb, 30 days for being drunk and disorderly; Homer Butler, 10 days for vagrancy; William Holland, 30 days for being drunk and disorderly; Indian Naches, drunk, case continued; John Carpenter, disturbing the peace, released on his own recognizance; John Anderson Doe, drunk and disorderly, \$10.

NEWS FOR THE AFFLICTED.

Dr. Prentice, the Great Specialist, on His Annual Tour.

Dr. Prentice, the eminent specialist, arrived from New York this morning on his way to Virginia City, where he will be engaged in practicing his profession from the 20th to the 28th inst. The doctor is not a stranger in Nevada, having practiced here for some months last year, during which time he made some most remarkable and successful operations. He has letters from many of his patients testifying their gratitude for cures accomplished, among them being Chat Roberts, whose cure from deafness is considered miraculous; James McKee of Empire, cured of strabismus; George Keeler of Virginia City, cured of his eye trouble; and at one operation and Mrs. J. Elkin of Virginia. The latter's letter is appended:

VIRGINIA CITY, March 28th, 1888.—Dr. Prentice—Respected sir: Your operation on my daughter Amelia's eyes is quite a success. You have given me liberty to refer to us, as her eyes will testify for themselves.

Mrs. J. ELKIN.

Dr. Prentice will practice in Reno and Carson, and due announcement will be made of the date of his arrival here.

The Land Auction.

All who desire to invest more or less cash, and boom our State at the same time, should be in Reno next Saturday and buy some of the handsome property in Powning's Addition. These prices will be reasonable, and purchases made cannot but prove profitable investments. It is well suggested that a good series of transactions in Reno town property, next Saturday, cannot but have an excellent reflex influence upon values and in the starting of activity in real estate throughout Nevada. The disgusted immigrants to Southern California cannot fail to hear of it, and they will soon be on hand to better their financial condition in the sagebrush State. General Powning has done well in developing his home scheme, and he ought to have imitators at every eligible locality in Nevada.

There will be free trains, and there is no reason why the business people east of the Sierras should not be present in multitudes and start a boom at Reno that will not cease until its beneficial effects have been felt everywhere within the boundaries of our Commonwealth.

—Carson Index-Union.

NEVADA'S FISH INTERESTS.

The Bark of Belyschers the Worst Obstruction.

H. H. Beck of Reno writes to Fish Commissioner Cary as follows:

"I have your favor of yesterday and note what you say about the dam at the Reduction works, as well as the Fish Commissioner generally. In answer, I have to say that I have given the matter of the fish ladder at the dam considerable attention ever since it was put in place by your order—have visited the dam on an average of three times a week, and am ready to assert that most, if not all the complaints are not founded on fact."

"In the first place I know that fish can go over the ladder, because I have seen them do so. Secondly, the ladder has not been clogged with bark at any time, nor has the fish-way been interrupted at any time with anything else. Thirdly, to assert that Indians catch fish out of the ladder is all dam foolishness, for it can't be done. For the last few days the stage of water in the river has been such that the fish go over the dam without the ladder, and it is consequently not needed. I may also observe in this connection that the dam is not an obstruction at the present stage of water."

"Your suggestion that I give the matter some attention is accepted. I will see that no bark lingers in the fish ladder, but will not undertake to stop the bark of the Belyschers."

The Borax Industry.

The Enterprise says: Since 1863 the borax production of the United States has increased from 5,000,000 pounds to over 10,000,000 pounds a year, and the price within the United States has been lower during this period of twenty-five years than prior to 1863. This industry has been fostered by the duty, and has increased as the figures given show. The Mills bill will take off the duty and place our borax producers in competition with the world, which is greatly to be desired, as the borax fields, we are deeply interested in the defeat of the party that attempts to reduce the profits of our industries. While our borax fields are in profitable operation the merchants of the State receive the benefit of the time and labor of the men who work which has been done.

An Old Nevada Friend.

One day in Detroit, Lew Stevenson, while walking with another lightning expert, frightened everybody in the vicinity by yelling at the top of his voice and dancing like a madman. A policeman called him, and demanded an explanation of his conduct. Lew shook himself loose from the officer's grasp, and pointing upward, yelled: "Let me go; I have just met and old Nevada friend!" Following the direction of his finger the bystanders saw the sun struggling through the dark and murky clouds which hung over the city.

Lew was so pleased to meet his old friend, whom he had not seen for weeks, that he invited all hands to "smile" with him.

Johnson's Minstrels.

The "Silver State" says: "Lew Johnson's Minstrels drew a full house at Centennial Hall last night. The troupe is above the average and kept the audience laughing a good deal of the time. Some of the jokes of the end-men were fresh and good, as was also a part of the stage business, while the Callopie quartette was aimitable and brought down the house."

At the Nevada Theater to-morrow night. Secure seats at Davis' cigar store, Commercial Row.

Soothes and Heals.

Santa Abie soothes and heals the membranes of the throat and lungs, when poisoned and inflamed by disease. It prevents night sweats and tightness across the chest, cures croup, coughs, asthma, bronchitis, pneumonia, whooping-cough and all other throat and lung troubles. No other medicine is so successful in curing nasal catarrh as California Cat-R-Cure. The enormous and increasing demand for these Standard California remedies confers their merits. Sold and absolutely guaranteed by Osburn & Shoemaker at \$1 a package. Three for \$2.50.

Congressman Woodburn writes to a friend in Virginia City that he is not, and never was a candidate for Judge of the Supreme Court of this State, but is a candidate for Congress, if his constituency see fit to nominate him. If they do not, they will find his name on the list of rank fighting for the success of the grand old party.

DR. PRENTICE.

Return of the Eminent Specialist.

After an Extended Visit to the Leading Hospitals of Europe. We are pleased to chronicle the safe arrival and return to America of Dr. Prentice. Less than one year ago the Doctor visited Reno and Virginia City. The remarkable surgical operations and the successful treatment of cases, previously considered incurable, which the Doctor effected while here, are fresh in the memory of all—have gained for him a reputation seldom attained in his profession. It is a well-known fact that Dr. Prentice invariably devotes one year in three in an extended visit to the hospitals of Europe. Notwithstanding that he was having an enormous practice, and earnestly solicited to prolong his stay here, he was reluctantly compelled to shorten his visit and make his customary visit to the Old World. He promised, however, to return, and is now on his way to Nevada. He visited the leading hospitals of Ireland, Scotland, England, Germany, Austria, Belgium, France, the Principality of Monaco, Italy, etc. He assures his many patients that he has spared neither time nor money to acquire all the latest methods and scientific treatment used in the Old World. He will arrive from the East and go direct to Virginia City, where he will treat all cases of strabismus, or cross-eyes, hemorrhoids or piles, stammering and the many ills for which he is renowned in effecting permanent cures. His visit to Virginia City will commence on the 20th of April, for one week, after which he will return to Reno.

The G. A. R. Benefit.

Mitchell Post, G. A. R., one of the most deserving charitable organizations of Reno, will give an entertainment at the Nevada theater on Monday evening next, the proceeds to be devoted to improving and beautifying the cemetery plot of the organization. The Woody Brothers male quartette and Miss Maggie Woody, contralto soloist, will appear, and judging from the press notices which have preceded them a most enjoyable entertainment can be anticipated.

Another Manifesto from Nasby.

Gentlemen who propose to attend the return leap year party are requested to notify me at once, so that proper preparations can be made in providing supper for all. If you fail to notify me and should get left on the outside, on your own fault and not the Depot hotel management, where the supper will be served.

H. P. KRAUS, of Arrangements.

Why cough and suffer with a cold, when Fryer's Abietine Cough Balsam will give immediate relief? (It contains no Opium.) Price, 75 cents. Sold by W. Pinniger. All genuine Abietine preparations bear the fac-simile signature of D. F. Fryer.

250 BEAUTIFUL LOTS FOR SALE!

From \$200 to \$600!

A Rare Chance for Investment and a Home.

THE MOST LOVELY PORTION OF RENO.
FACING THE TRUCKEE—THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY—SPLENDID SEWERAGE—HEALTHFUL LOCATION AND SAFE FROM FIRE.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buying elsewhere, Parties will do well to look at these Lots.

MISCELLANEOUS

Ayer's Cherry Pectoral

Possesses the greatest possible power to heal and control affections of the throat and lungs, with absolute safety for children or adults. The experience of years has proven it to be of inestimable value as a household medicine, and for professional use. Thousands of physicians and families testify to its great worth. Jas. E. Moring, Highland, Ohio, writes: "I have used Ayer's Cherry Pectoral in my family for twelve years, and have found that, as a remedy for Coughs, Colds, or Sore Throats, it

Is Unequaled.

J. I. Miller, editor of the "Lutheran Home," Luray, Va., writes: "I advertise nothing that I do not know to be good. I was saved from the grave, I am sure, by the use of Ayer's Cherry Pectoral, and have recommended it to others with the happiest results." L. J. Addison, M.D., Chicago, Ill., writes: "I have never found, in thirty-five years of continuous study and practice in medicine, any preparation of so great value as Ayer's Cherry Pectoral, for treatment of diseases of the throat and lungs; and I constantly recommend it to my patients. It not only breaks up colds and cures severe coughs, but is effective in relieving the most serious bronchial and pulmonary affections."

John J. Uhlman, Brooklyn, N.S., writes: "Twelve years ago, I was afflicted with a severe bronchial trouble, pronounced by a skillful physician to be very dangerous, and liable to terminate in Pneumonia. After using one bottle of Ayer's Cherry Pectoral, I found great relief, and an occasional use of it since that time has, I think, extended my life ten years at least." Mrs. V. M. Theobald, Montreal, Canada, writes: "Last spring my daughter was attacked by membranous croup, or diphtheria. The doctor prescribed Ayer's Cherry Pectoral, which cured her of the diphtheria. Being still very weak and sick, she began taking Ayer's Sarsaparilla, which restored her to vigorous health."

LARGE INVOICES OF NEW GOODS
for the HOLIDAYS have just been
received, at prices to suit all. Agents for
the celebrated American Watch
Company. Also, all others of American
and European make. PATENT PRIZES &
Co. The celebrated Rockford movement
will sell on six months trial, with
privilege of exchanging for one of any
other make, if with fair usage, it should
prove unsatisfactory. You once carry a
Rockford you will not part with it.

Give Them a Chance!

That is to say, your lungs. Also all your
breathing machinery. Very wonderful
machinery it is. Not only the larger air-
passages, but the thousand of the tubes
and cavities leading from them.
When these are clogged and choked
with matter which ought not to be there,
your lungs cannot do their work.
And what they do, they cannot do well.
Call it cold, cough, croup, pneumonia,
calarrh, consumption or any other family
of throat and nose and head and lung ob-
structions, all are bad. All ought to be
got rid of. There is but one sure way to
get rid of them. That is to take the
German Syrup, which any druggist will
sell you at 75 cents a bottle. Even if every-
thing else has failed, you may depend
upon it.

Cure for Sick Headache.

Go to S. J. Hodgkinson & Co., the drug-
gists, and get a free sample of Dr. Gunn's
Liver Pills. Will cure Sick Headache the
first night. Good for biliousness, Sallow
Complexion or Pimples on the face. Only
one for a dose. 25 cents a box.

LIFE RENEWER.

When Has Timothy the Great-
est Value for Hay.

Kansas Farmer.]

As a result of careful chemical
analyses of timothy at full bloom
and at subsequent stages of growth,
made at the Massachusetts Agri-
cultural Experiment Station last
summer, the following conclusions
were reached: "1. It was found
that the amount of water in tim-
othy diminished very rapidly after
the period of full bloom. 2. There
is a large increase in crude fibre in
late cut timothy over that cut at
the period of full bloom. 3. As
the grass approached maturity
there was a considerable diminu-
tion in the per cent of sugars and
an increase in starch. 4. The pro-
portion of albuminoids—the nutri-
tious elements—to the other or-
ganic constituents diminished after
the period of full bloom; and in
late cut timothy the albuminoids
were much less digestible than in
that cut at the time of full bloom.
5. The experiments of Professor
Ladd show that the increase in
quantity of timothy after the pe-
riod of full bloom was not sufficient
to overbalance the lower digesti-
bility of the albuminoids, together
with the large increase in fibre. 6.
Professor Ladd concludes that it is
preferable to cut timothy for feed-
ing at the period of full bloom
rather than after the seeds have
formed."

About Washing Sheep.

Sheep washing will soon come
under the supervision of farmers
in order of time. According to
usual custom sheep are washed
with the wool on the sheep's back,
or driven to the streams and dipped,
plunged or made to swim, as the
occasion may serve. I have fol-
lowed this barbarous rotation for
over a half century, and consider
there is nothing in it for the
farmer. I have seen flocks driven
a mile or more to the washing in
very poor condition to go, never
tagged, with their young with
them, then and there to be im-
mersed or plunged, as some call it;
the poor dumb brutes terrified al-
most out of their wits; then to be
caught by some rough hired hand
and nearly drowned; then let loose
to make their way to shore, often
swimming a rod or two. How of-
ten have we heard the bleat of
terror proceed from them. They
often arrive at the shore so much
exhausted as not to be able to
stand, and fall in the mud or sand,
making their coat of wool worse
than if left in the field. Sheep
treated in this way are injured,
and their owners losers. A mer-
ciful man should be merciful to his
beasts. Often have I seen sheep
at washing so nearly exhausted
that it was necessary to lift them
so they might stand, and then re-
ceive a kick to stimulate them for
further exertion. I speak in behalf
of the quiet and helpless sheep
when I demur against sheep-wash-
ing, or driving through the creek,
or otherwise attempting to cleanse
them. Let us sell our wool on its
merits as the factory men say we
never wash to clean for carding.

Some may say I am in favor of
selling dirty wools. Let me add
that the grease in these wools has
never been washed out on the
sheep's back at the streams, ponds
or spouts, and never will be. But
I would heartily endorse at shear-
ing time having two sacks, one to
hold the wools, and another, to
hold the manure. Both will meet
with their different buyers at some
price. I hope to hear from various
correspondents on this subject.—
[Jas. M. Elliott, in National Stock-
man.]

Ladd show that the increase in
quantity of timothy after the pe-
riod of full bloom was not sufficient
to overbalance the lower digesti-
bility of the albuminoids, together
with the large increase in fibre. 6.
Professor Ladd concludes that it is
preferable to cut timothy for feed-
ing at the period of full bloom
rather than after the seeds have
formed."

As a result of careful chemical
analyses of timothy at full bloom
and at subsequent stages of growth,
made at the Massachusetts Agri-
cultural Experiment Station last
summer, the following conclusions
were reached: "1. It was found
that the amount of water in tim-
othy diminished very rapidly after
the period of full bloom. 2. There
is a large increase in crude fibre in
late cut timothy over that cut at
the period of full bloom. 3. As
the grass approached maturity
there was a considerable diminu-
tion in the per cent of sugars and
an increase in starch. 4. The pro-
portion of albuminoids—the nutri-
tious elements—to the other or-
ganic constituents diminished after
the period of full bloom; and in
late cut timothy the albuminoids
were much less digestible than in
that cut at the time of full bloom.
5. The experiments of Professor
Ladd show that the increase in
quantity of timothy after the pe-
riod of full bloom was not sufficient
to overbalance the lower digesti-
bility of the albuminoids, together
with the large increase in fibre. 6.
